

Information to all parents

We want to inform you on how to register your child for daily lunch at the school's canteens. There, a new chip system is in use, which is provided by MensaMax and administered by us.

Education and participation / Bildungs- und Teilhabe: If your child is eligible you can get an approval from your administrative district. Your child then does not have to pay for a daily meal. We can also provide you with the application form.

How does the registration work?

Please register your child at:
